

Color Switch

HTML/CSS/JS - Recap

The following exercise contains the following subjects:

- Everything we have learned

Instructions

Create an interactive quiz that tests the user's knowledge about the capitals of various countries

Here is a small [demo](#)

Setup

- **Styling**
 - Style 2 Buttons Reset and Switch
 - Change Background using JS
- **JavaScript Logic**
 - Check How RGB color structure is in CSS
 - Implement a function to make random number
 - Everytime you click switch change the color and text on screen
 - Reset button to reset it back to white as default
